

# Dynalite Sensors

## DUS360CS

The Philips Dynalite sensor range combines motion detection, light level detection and IR receive in one unit. Each of these features can be operated at the same time, allowing automation scenarios such as turning on the lights after detecting motion and then dimming the lighting level once the available sunlight has been measured, thereby providing additional energy savings. By combining each of these functions into one device, operational efficiency is improved. Each sensor has an in-built microprocessor, allowing logical functions to control one small room, the floor of a building, or an entire building. All sensors receive their power from the DyNet network, and as they are fully remotely programmable, they can be configured to automate and control a virtually unlimited number of controlled outputs.

### Product data

# Dynalite Sensors

## General information

CE mark	CE mark
Remarks	Please download the Lighting - Product Data Sheet for more information and ordering options
EU RoHS compliant	Yes

## Approval and application

UL Recognized	Yes
UL Recognized Canada & US	Yes

## Application conditions

Ambient temperature range	+32 to +113 °F
---------------------------	----------------

## Product data

Order product name	DUS360CS
EAN/UPC - Product	8718696887967
Order code	913703243109
Local order code	.
Numerator - Quantity Per Pack	1
Numerator - Packs per outer box	1
Material Nr. (12NC)	913703243109
Copy Net Weight (Piece)	0.485 lb
